

Attention Installer:

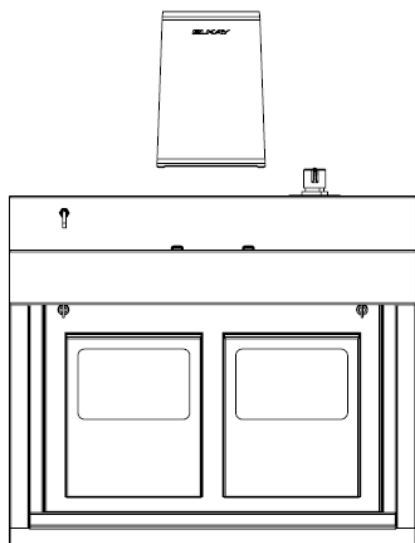

- **Compatibility:** This accessory is intended only for use with Elkay EWSF sink models.
- **Inspection:** Please inspect the accessory for any shipping damage before beginning installation.
- **Technology:** This accessory utilizes a magnet feature to secure itself to the back wall of the sink.

Installation Instructions

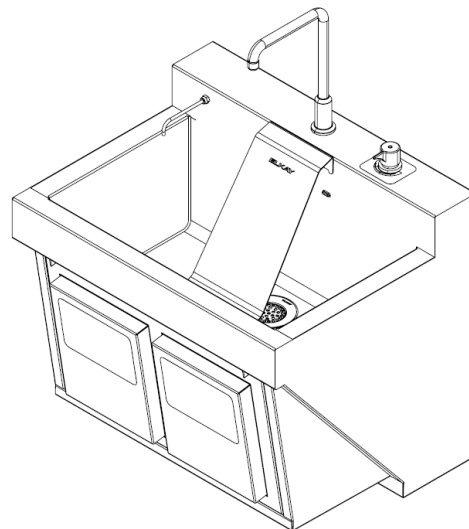

Step 1:

Position the accessory directly above the sink basin.

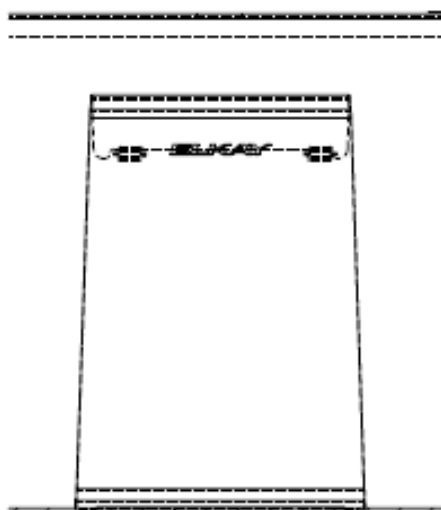

Step 2:

Slowly lower the accessory into the sink. Ensure the back of the accessory is flush against the back wall of the sink. NOTE: You will feel the magnet feature engage as it pulls the accessory toward the sink wall.

Step 3:

Continue to lower the accessory into position. Make sure the two raised embossments on the back of the sink are centered between the slot on the accessory as seen below.

Step 4:

Once aligned and magnetically secured, the installation is complete.
