## RECOMMENDED USE CONDITIONS

System Model	Replacement Element	Working Pressure	Operating Temperature	Flow Rate	Capacity
EWFPF5M	PF5M	Max pressure 100 psi (689 kPa) (7.0 Kg/cm <sup>2</sup> )	40 – 100° F (5 – 38° C)	1.5 GPM (5.7 LPM)	Variable, depending on local water quality 1 Year Maximum

This system has been certified by IAPMO R&T and tested according to NSF/ANSI 42 and 372 for material safety and structural integrity only. This prefilter helps filter out larger dirt particles, sand and other sediment, helping to extend the life of the primary filter.

Performance will vary depending on local water conditions. While testing was performed under standard laboratory conditions, actual performance may vary. Replace prefilter when water flow becomes extremely low. Filter installation and usage must comply with applicable local and state regulations.

**IMPORTANT NOTICE:** Read this Performance Data Sheet and compare the capabilities of this unit with your actual water treatment needs. It is recommended that, before purchasing a water treatment unit, you have your water supply tested to determine your actual water treatment needs.

**PLEASE NOTE:** For use on cold water line only. Do not allow installed filter to freeze.

## Limited Warranty

This product is warranted to be free from defects in material and workmanship for a period of one year from the date of installation. Warranty is limited to repair or replacement of defective component.
